Coverdale Christian School, Sydney

FREELANCE PROJECTS

ReDesign The Label – 07/2022 Website: https://www.redesignthelabel.com/
- The client built using Squarespace, however the client required further work to achieve goals.
- Using Agile development, I consulted on design look and feel of the site.
- Within the brief given by the client I refactored the code to suit the client's needs for their site users.

PORTFOLIO PROJECTS

P-Life

This project is a forum for pilots to come together and discuss everything piloting.

Technologies used for this project: Django, HTML, CSS, JavaScript, Bootstrap built using my Github repository, Gitpod and Git version control.

https://github.com/Niged01/P-Life

AVIATION

This project is a quiz based on the commercial aviation industry.

Technologies used for this project: HTML, CSS & JavaScript, built using my Github repository, Gitpod and Git version control.

https://github.com/Niged01/Aviation

TRAMPLED LONDON

This project was designed when traveling to London that you have been to before. It gives the user to go on tours with locals and experience the city away from the tourist traps.

Technologies used for this project: HTML & CSS, built using my Github repository, Gitpod and Git version control.
